I'm a Republican Because I Believe...

- A smaller and more efficient government is a better government
- Lower taxes and fewer government regulations lead to more jobs and a stronger economy
- Peace and security come from a strong military and the people's right to bear arms
- Law-abiding immigrants are to be welcomed, but those who enter illegally or break the law should be identified and be deported
- Parents should be free from government intrusion to make the best decisions for their children and families
- Biological males should not legally compete in biological women's sports
- Social programs should help those in need without creating long-term government dependence
- The Constitution of the United States is the supreme law of the land and must be protected to retain our freedoms
