**Measure 111** **NO**

**Constitutional Amendment** "No" vote preserves current law. A "Yes" vote is a path to single payer government healthcare, where the government determines what/when/how/if you get healthcare.

**Measure 112** **NO**

**Amends Constitution** A "Yes" vote will have an unknown and potentially disruptive effect on convict work programs. The constitution already prohibits slavery. This measure requires judges to use 'equity' standards

**Measure 113** **NO**

**Amends Constitution:** "No" vote preserves existing law. A "Yes" vote bars a legislator from reelection by missing 10 sessions. Their constituents should determine this by election.

**Measure 114** **NO**

"No" vote preserves current law: A "Yes" vote would restrict legal ownership of guns, requiring a permit and charge a fee to purchase; It also restricts magazines to ten rounds, and requires local police to provide prerequisite training and create a gun registry.
